SEASON 1895.

HIGH GRADE TESTED FLOWER AND VEGETABLE SEEDS

For the Expert and Practical Florist and Gardener.

WORTH CONSIDERING.—All orders are filled on farm near city and shipped from the city, thus saving the great cost of a city store. We refrain from issuing a large expensive descriptive catalogue and doing extensive advertising, as the cost of both would have to be added to the price of the seeds. We leave lengthy descriptions to others, but offer the identical seeds for much less. We prefer to have customers who know what they want rather than by the influence of highly-colored chromos and high flowing descriptions. These savings we give our customers in reduced prices. In other words, not having such expenses, we sell the same seeds at the production prices before these extra charges are added. When it is so desirable "to get as much for the money as possible," as at the present—the foregoing is *worth considering.*

NOVELTIES.—All the novelties and new and desirable kinds that are distinct and worthy will be found in this list. Do not be deceived by old varieties offered under new names and descriptions. It can be depended upon that any kind not found in this catalogue is lacking in merit.

CATALOGUE NUMBERS.—For brevity and the convenience of our correspondents we have prefixed a catalogue number to each variety of seed, which can be used when ordering or referring to any kind.

POSTAGE.—Seeds in packets and ounces will be prepaid to any Post-office. If larger quantities are to be sent by mail, add to order for postage at the rate of 8c. per lb. and 15c. per qt. on Beans and Peas, and 10c. per qt. for Sweet Corn. At prices named, seeds by the pound, quart and bushel will be shipped by express, freight, or steamer, charges to be paid by party receiving the same. Send shipping instructions with each order.

NO CHARGE is made for boxes or barrels, and all seeds are delivered free of cartage to transportation company in city.

TERMS.—Our terms are CASH with order, except to old customers to whom special terms are made. Parties unknown to us desiring credit will please send satisfactory reference with order.

HOW TO SEND MONEY.—Remittance should be made by New York Bank Draft, Post-office Money Order, Express Money Order, or Registered Letter, at our risk. Postage stamps, when clean and free from moisture, will be taken in small amounts, but at the risk of sender.

NOTE.—While we supply the best and purest seeds that nine-tenths of the planters succeed with, we wish it distinctly understood that we do not warrant our seeds and will not be in any way responsible for any failures.

SEED IN COLORED PACKETS.—All those who order to sell again can have them put up in beautifully lithographed packets if the varieties of vegetables in full face type and kinds of flower seed preceded by * are selected.

PREMIUMS.—To all whose order with remittance amounts to $1.75 or over, we will present the "Prize Coupon for 1895" referred to on margin. You can secure expensive novelties free by taking advantage of this offer.

TESTIMONIALS.—Our register of customers contains the names of many noted florists and gardeners, and we have on file hundreds of letters from them bearing testimony as to the quality of our seeds, and we would submit same but for want of space; however, we will send a list of such at any time to those who feel interested. Address,

N. Y. MARKET GARDENERS' ASSOCIATION,

P. O. Box 2341, New York City.

1895 PRIZE COUPON

Will be presented to all whose orders with remittance amounts to $1.75 or more, and entitles the holder to a selection of Five new or costly varieties, either garden or flower seeds, or both, as desired. Those who do not require at least $1.75 worth of seed each season are not likely to be interested in new and improved sorts. By favoring us with your orders for actual wants, you may secure novelties of your own selection free, which you would have to pay from 50 to 75 cents for elsewhere. In other words, we are glad to make this offer to those who send us their orders for necessities.
